

How accessible is the school environment?

- Our school environment is a single storey building which is fully accessible and includes a room that can be used for small group interventions and a nurture room.
- There are adapted bathroom facilities to meet the needs of those with physical difficulties.
- Resources are provided as required, supported by OT e.g. adapted chairs.
- The Accessibility Plan for disabled pupils is available on the school website – this is updated with staff and governors.
- All classrooms have visual timetables in place to support children with SEND.
- We can access the Inclusion Team to enable us to support children with English as an Additional Language.
- All of our modular buildings have wheelchair access via ramps.
