

The Nest

Speech and Language Therapeutic Intervention.

Costing

Offering a personalised experience at a rate of **£40 for a 2.5-hour session** is an appealing proposition for children seeking a bespoke, tailored service. This pricing reflects a commitment to providing a detailed and customised approach, ensuring that each session is crafted to meet the unique needs and preferences of all children.

Speech and Language

70% of children who access speech and language interventions subsequently improved their confidence skills alongside their speech.

Our Children

“Interactions between adults and children are of extremely high quality, with a keen focus on the development of language and vocabulary”.

-Ofsted 2024

About us...

"The Nest" is a specialised service that partners with the East Area Inclusion Partnership to offer targeted therapeutic support for young children with speech, language, and communication challenges. Focused on children aged 3-6, the program delivers three intensive sessions each week over a course of eight weeks. The primary goal is to facilitate significant improvements in the children's learning, developmental milestones, and communication and social skills. By providing a supportive and nurturing environment, "The Nest" strives to ensure that children are better prepared to reintegrate into their home schools with enhanced abilities and confidence, with support staff professionally developed, leading ultimately to the young person's long-term educational success.
